

Own Funds Disclosures 2017

In addition to information provided in the “Report and Consolidated Financial Statements for 2017” of RCB Bank Ltd and in accordance with the CRR Article 437 requirements, you can find to the below table a reconciliation between the regulatory capital items and the balance sheet in the audited financial statements.

| Own Funds Reconciliation | Financial Statements EUR000 | Pillar III Disclosures EUR000 | Variance EUR000 |
|--|--------------------------------|-------------------------------------|--------------------|
| Share Capital | 18.471 | 18.471 | - |
| Share Premium | 120.600 | 120.600 | - |
| Retained Earnings and other comprehensive income | 323.807 | 304.808 | (18,999) |
| Intangible Assets | (1.307) | (1.307) | - |
| Prudential Filters | - | (161) | (161) |
| Subordinated loan | 83.808 | 23.804 | (60.004) |
| Total Own Funds | 545.379 | 466.215 | (79.164) |

Difference to the Retained earnings and other comprehensive income is due to the fact that financial retained earnings and regulatory approved retained earnings are subject to different time recognition. Variance arises to the subordinated loan which to financial statements is presented according to its accounting value and to Pillar III is presented amortised according to CRR Article 64. Also prudential filters related to additional value adjustments as regards to the assets measured at fair value, are not part of financial statements but it is considered as regulatory component.

The analytical Own Funds disclosure template can be found in Annex I and the main features of the Common Equity Tier 1 and Tier 2 instruments issued can be found in Annex II and Annex III.

The CRR sets out requirements relating to prudent valuation adjustments of fair-valued positions to determine prudent values that achieve an appropriate degree of certainty having regard to the dynamic nature of trading book positions. The Bank applies the “Simplified approach” in order to calculate the additional value adjustments (“AVA”). Under the simplified approach, the calculation of the required AVA is the 0,1% of the aggregate absolute value of fair-valued positions held by the institution.
